

# The Quilling Guild Terminology Sheet

at 1<sup>st</sup> January, 2021

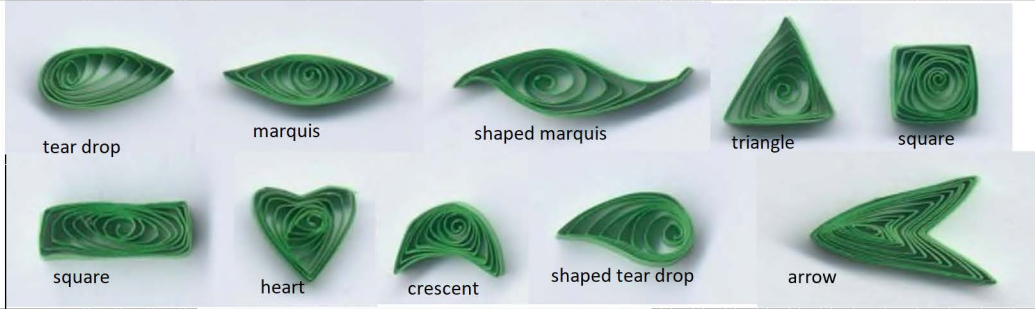

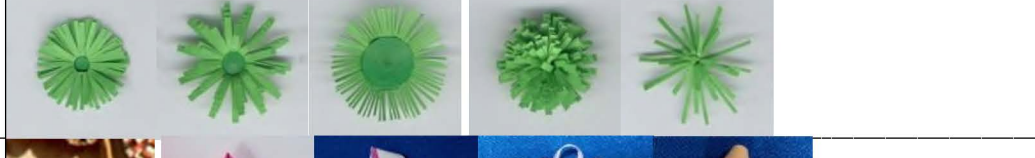

Techniques marked with an asterisk \* are traditional, historical and used in antique quilling.

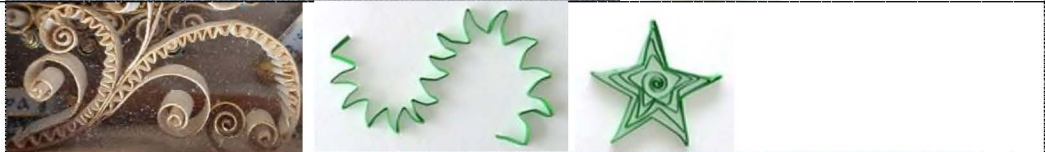

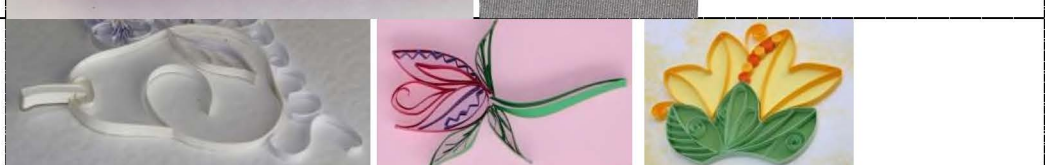

The other techniques used by quillers, listed below, are also made with strips of paper. Often, they are derived from other crafts, whilst some are seen as more recent developments.

Please read Accreditation and Competition rules carefully to check which of these techniques apply for each particular occasion.

There are more variations than are illustrated here. Shapes often appear in several techniques.

The quillings shown are illustrative examples and are neither definitive nor perfect.

<p><b>Closed Loose Coils *</b> - Shaped</p>	
<p><b>Open Coils *</b> - Scrolls</p>	
<p><b>Tight Coils *</b></p>
